

SpringBoard Digital ELA

Self-Learning Guide

The best way to learn how to use SpringBoard Digital (SBD) is by practicing with it!

- 1 Complete the steps below in order.
- 2 Record questions / comments for future assistance in the last column.
- 3 Contact SBD Tech Support with unanswered questions:
Email SBTechSupport@collegeboard.org or call **877.999.7723**

How to Use This Guide

The tasks on the following pages will take you through the basic steps of the instructional loop (Plan, Teach, Assess, Adapt) using SBD. You will use a sample class and student, so that you may try out each feature and experience SpringBoard® Digital from both the teacher and student views. Each step includes links to relevant sections of SpringBoard Digital Help for support.

Note: If you are in a Clever/ClassLink district, you must first request an Instructional Coach account that will allow you to create sample classes and sample students for practice/exploration. Contact your district SpringBoard Tech Admin or SpringBoard Tech Support.

Understand User Roles

There are different types of accounts based on user roles (student, teacher, instructional coach, administrator) in SpringBoard Digital. To better understand which account will meet your needs and the features that account will provide, explore [Roles](#).

Quick Start

If you are short on time, follow the steps and bullets highlighted in yellow for a streamlined version of the SpringBoard Digital setup for teachers and students.

Let's Get Started

PLAN

STEP	TASK	RELATED SUPPORT	QUESTIONS / COMMENTS
1	<p>Create and log in to your SpringBoard Digital account</p> <p>Note: Only do this if you do not already have an account. If you are a Clever or ClassLink district, teacher and student accounts are created automatically based on the data that your district is sharing with SpringBoard, and you will need to contact your Technology Administrator or SpringBoard Coordinator for login information.</p>	<p>My Account</p> <p>Log In/Out</p>	
2	<p>Create a Class</p> <ul style="list-style-type: none"> Go to Class Roster, click create a class, name it "Practice Class," and assign a Product (eBook) to that class. 	<p>Class Roster</p>	
3	<p>Create a Practice Student</p> <ul style="list-style-type: none"> Copy the class access code in Class Roster and use it to create a "Practice Student" in that class (log out and click "New to SpringBoard?"). <p>From this point on, you will be switching between your Teacher and Student accounts.</p> <p>TIP: You can stay logged in to both accounts only if you use different browsers, i.e., Chrome and Firefox—this is the easiest option while practicing. Using different tabs in the same browser will <i>not</i> work. If you choose to use one browser, you will need to log in and out each time you change user roles. Note: You can use an incognito window in Google Chrome for a second account.</p>	<p>My Account</p> <p>Log In/Out</p>	
4	<p>TEACHER: Plan a Lesson</p> <ul style="list-style-type: none"> View eBook and use the Table of Contents to navigate to any lesson. Go to the Class Copy for the Practice Class you just created. 	<p>Using SpringBoard Digital for ELA Instruction Webinar video</p> <p>ELA eBook</p>
