

## TURNITIN REVISION ASSISTANT

# Engaging Students in Writing

It's widely believed that students improve their writing by getting feedback early and often in the writing process. But many teachers don't have enough time to provide feedback on multiple drafts. Revision Assistant is designed to help.

## A cutting-edge resource

Revision Assistant has been designed with extensive input from SpringBoard® and AP® teachers. This allows for an efficient yet rigorous assessment of student writing. Teachers assign a writing task, which students compose online and submit. Revision Assistant then analyzes students' writing based on rubrics linked to Embedded Assessments, which are central to SpringBoard instruction. This constructive feedback is provided throughout the writing process.

## A more efficient process

With Revision Assistant, teachers can see student writing that has been reviewed and edited multiple times. As a result, it provides more opportunities for targeted conferences with students on the topics they are struggling with.

## Helping teachers make students better writers

### INSTANT FEEDBACK

The feedback is available on demand, and students can ask for it as often as they want.

### PERSONALIZED ANALYSIS

Revision Assistant identifies strengths and weaknesses in students' writing and provides specific guidance on how they can improve. This motivates students to keep revising and take their work to the next level. Research shows that students write more and revise more often with Revision Assistant\*:

- Students requested feedback 7.9 times per essay, on average.
- The average student essay increased by 277 words across all drafts.
- Students saw a 53% increase in writing scores between first and final revision, on average.

### HOLISTIC FEEDBACK

Colorful icons show students how well their ideas are getting across.

### TARGETED FEEDBACK

Highlighted sentences focus students on areas of strength and areas in need of improvement.

### ACTIONABLE COMMENTS

Genre-specific advice guides students through the revision process so they learn to write for any situation.
